

Top of the day!

I am pleased to announce that AquaHealth Waters has generously offered to support two local charities of our choosing, by donating 5% of their Villanova water sales to the following charities:

- Catholic Relief Services - Water Today, Water Tomorrow project fund. For more information: <http://gifts.crs.org/health/ethiopia.cfm>
- The Uganda Rural Fund - for more info: URF <http://www.ugandaruralfund.org/>

This is in support of our continued partnership as well as in response to our desire to find a way to increase our fountain water usage and reduce bottled beverage consumption on campus. This is an extension of our "going green" initiative. Signs will be placed at all locations advertising this new program in all areas that AquaHealth water is featured as well as on our website.

Each semester we review this program and possibly select other charities to support.

Join me in thanking AquaHealth for their generosity and for marketing with a mission.

Best Regards,

Tim
